SKILLS

Python

SQL

PostgreSQL

React

Node.js

JavaScript

HTML/CSS

C#

C

Java

Risc-V

Bash

Kotlin

EDUCATION

Drexel University | 2023-2026

Bachelor of Science in Computer Science | GPA: 3.87

York College of Pennsylvania | 2021-2023

Computer Science Major | GPA: 3.85

WORK EXPERIENCE

APP DESIGNER/DEVELOPER – MAMA MAY I

March 2025-September 2025

Responsible for continuing the development of and releasing a mobile application using Unity and C#. Recorded text and audio responses and created a user profile and response search feature.

MATH TUTOR – YORK COLLEGE OF PENNSYLVANIA

September 2022 - May 2023

Aided students with up to 11 different math courses to help students increase their skills and confidence in their math courses

PROJECTS

BLOOMBERG SPONSORED SENIOR PROJECT – TEAM LEADER

Built an automated Python extraction pipeline for bond indenture filings pulled using SEC EDGAR API that identifies key security information, governing laws, and payment calendars.

Designed an extraction pipeline that combines pattern-matching with structured NLP prompts to create a uniform output for unstructured legal documents

CAMPUS MARKETPLACE

Collaborated on a campus marketplace web application developed with Node.js, leveraging PostgreSQL for relational data storage and WebSockets to implement real-time messaging functionality.

PERSONAL WEBSITE

Constructed a portfolio using React, HTML, and CSS to showcase my work using my resume as subject matter. <https://brittyb.github.io/portfolio/>

SCRAPBOOK

Designed and created a website with a team that acts as a virtual scrapbook.

Implemented HTML, CSS, and JavaScript. Managed login information and logged memories using Firebase
